## Why Choose Encore?

Encore Video Services is a professional production facility that has served Orange County and adjoining areas since 1984. During those years, Encore has earned a reputation for artistic excellence, moderate cost and complete reliability.

Encore uses broadcast quality cameras and editing equipment, with skilled use of telephoto lenses, special filters and lights to create beautiful pictures in natural color.

True-to-life sound is captured with broadcast quality wireless microphones on four channels of audio. The microphones are close to the "action" and the music. We believe a great picture deserves great sound.

Encore videographers are discreet, experienced and well dressed. Our editors are adept in the use of music, special effects and computer graphics to create a memorable production.

Encore offers packages to suit every budget. All packages are videotaped in High Definition. Titles and music are included. As a special bonus, all packages include three DVD copies for you to lend, send or just hold on to for safekeeping.

**All video is recorded in Hi-Def.**

## Wedding Packages\*

Encore Video Services staffs professional wedding videographers with a minimum of 20 years experience.

Your special day will be digitally recorded by award-winning experts in the industry, and professionally edited at Encore Video's main facility in Orange County, California. Your finished production will be beautifully packaged and suitable for distribution.

### The Opal

**\$695**

Ceremony Only.

This coverage begins with pre-ceremony highlights and ends with the formal photography session and/or departure of the wedding couple from the ceremony location. Up to three hours of Digital Broadcast Quality Video Coverage and Studio-Editing that includes opening titles, special effects, a credit roll and the music of your choice all blended together to create a masterpiece.

### The Ruby

**\$1,295**

Ceremony and Reception.

This coverage captures your entire wedding day from pre-ceremony through the reception. We videotape the still photography sessions before and after the ceremony, greeting family and friends and the ceremony with multiple microphones and telephoto lenses. At the reception we capture the theme decorations, the grand entrance, the best man's toast, first dance, best wishes from family and friends, cutting the cake and bouquet and garter toss. The video ends with closing comments from you and your spouse. The videotapes are studio-edited allowing us to tell your wedding story in the most selective and beautiful way, adding opening titles, a movie style credit roll and background music where appropriate. Up to seven hours of Digital Broadcast Quality Video Coverage and Studio-Editing that includes opening titles, special effects, a credit roll and the music of your choice all blended together to create a masterpiece.

### The Emerald

**\$1,795**

2 Camera Ceremony and Reception.

This package differs from the Ruby in that the wedding ceremony is covered by two cameras, allowing us to videotape this memorable event from two strategic vantage points and blend them in our studio to form a smooth and dramatic presentation. This coverage captures your entire wedding day from pre-ceremony through the reception. Up to seven hours of Digital Broadcast Quality Video coverage with opening titles, a credit roll and the music of your choice all blended together to create a masterpiece.
